

Plastic Cone Diffusers

Vic Air Supplies Plastic Cone Ceiling Diffuser range provides a grille that is completely adjustable with its rotating central cone. This feature offers complete control and comfort for any installation.

Manufactured from high impact, engineering grade ABS plastic that adheres to Internationally recognised standards and complies with Australian Standards.

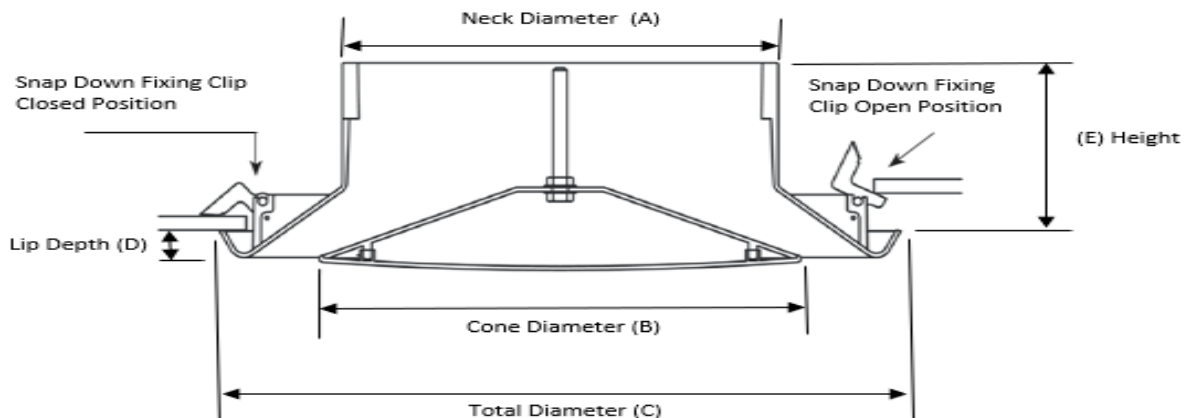

This range of diffuser comes etched to reduce glare and reflection and comes in our standard colour white. Available in 5 sizes ranging from 100mm, 150mm, 200mm, 250mm and 300mm.

Installation Applications

With snap down fixing clips Vic Air Supplies Plastic Cone Ceiling Diffuser provides quick and easy installation and is suitable for the following installations.

- Gas Ducted Heating
- Gas Ducted Heating with Add-On Cooling
- Ducted Reverse Cycle Airconditioning
- Commercial / Domestic Ventilation (Exhaust)

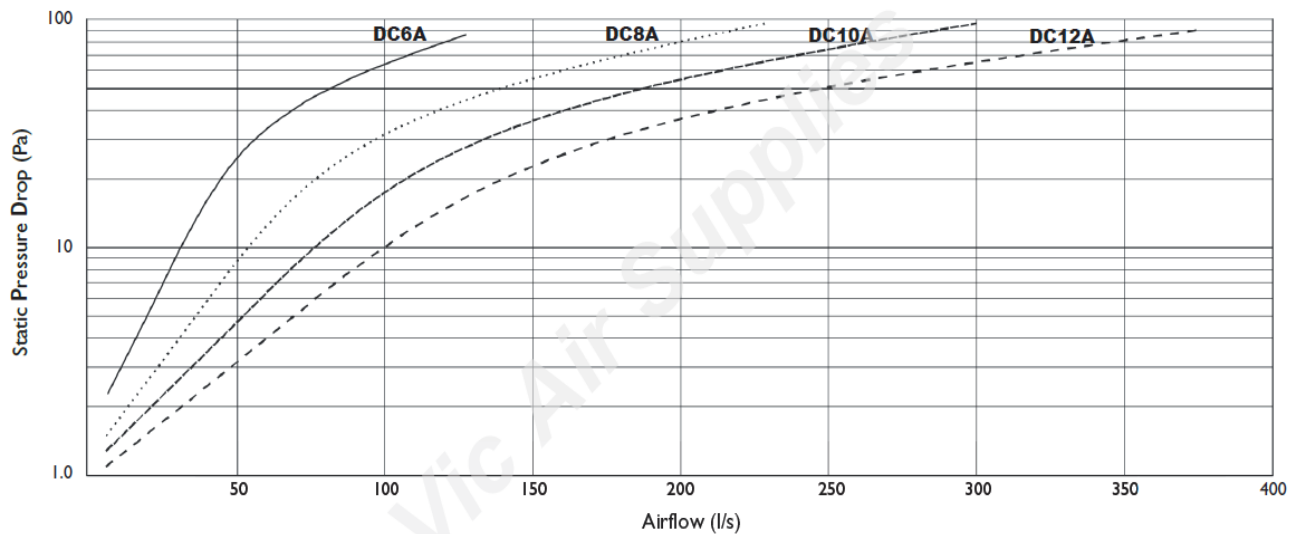

Code	Suits Duct (mm)	A	B	C	D	E
DC4A	100	95	121	177	11	61
